

SHIRLEY

DYEING & FINISHING

SHIRLEY

DYEING & FINISHING

Our Services

Shirley offer a commission dyeing and finishing service covering the full spectrum of the requirements of the textiles and fabrics industry.

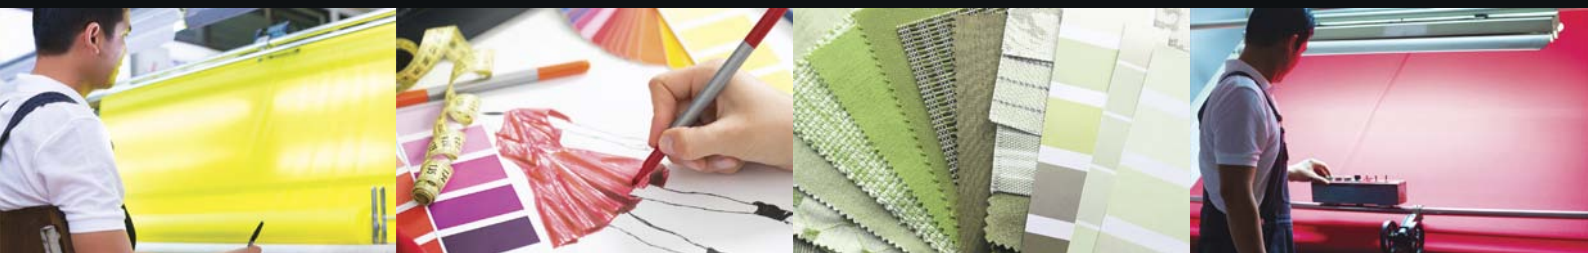

WE OFFER

- Dyeing and specialist finishes for the fashion industry
- Specialist dyeing and finishing for the homestyle and homewares industry
- Specialist treatments and applications for the technical fabrics industry including industrial products, health care products, military products, sport and recreational products
- Bespoke services
- Exact colour matching
- Small batch samples to large scale runs.

Shirley are totally service driven to meet the precise needs of every customer. We offer dyeing and finishing for the majority of fibres and fabrics, quality management and fabric optimization, the development of new processes and applications from lightweight silks through to heavyweight or industrial fabrics.

We offer customer support with full laboratory and computer aided colour management services for both sample dyeing, shade prediction and colour and quality control. A library of past designs and shades is maintained for all customers ensuring accuracy and repeatability for all future dyeings.

Our dyeing machinery includes: pressure beams, jigs and winch.

Our proven expertise in the development of dyeing and finishing processes benefits our customers in the increased potential for greater competitiveness for their products.

Fashion Fabrics

Shirley offer fashion designers, silk and high end fabric stockists and merchants, retailers and end users the very latest computer controlled colour matching and specialist dyeing and finishing for bespoke orders from 10 metres upwards for all fashion fabrics, natural and man-made, including:

- Cotton and cotton blends
- Crepe de chine
- Dupion
- Habetai

Our history and heritage

Based in the UK North West, Shirley Dyeing and Finishing Limited's heritage and expertise dates back to 1919 when, as part of the Shirley Institute, specialist research and technical support and dyeing and finishing services and facilities were provided to the UK and Overseas cotton, silk and fabrics industries.

Since those early times Shirley Dyeing and Finishing Limited has established itself commercially as the leading UK specialist for the dyeing and finishing of all fabric types for current commercial and fashion end use or as a confidential partner in the development of processes for new fibres and fabrics.
